

Welcome to VidaCura Group

emida Residenzen GmbH

emida Residenzen GmbH

We are delighted to welcome emida Residenzen GmbH to the VidaCura Group as of early August. The company operates three modern stationary care facilities that perfectly complement our group's portfolio, representing compassionate, high-quality care in contemporary and welcoming environments.

- Hille (North Rhine-Westphalia): 80 single rooms and 11 senior-friendly apartments (54–90 m²), opened in 2022
- Liebenau (Lower Saxony): 80 single rooms and 4 service apartments, opened in 2023
- Rödinghausen (North Rhine-Westphalia): 70 single rooms, opened in 2024

With these three facilities, VidaCura expands its nationwide network with homes offering excellent equipment, modern infrastructure, and state-of-the-art technology – providing residents with the highest levels of comfort and quality of life through personalised care.

Over the past years, Michael Müller, the company's founder and previous owner, has built an innovative care organisation that places residents and staff alike at the heart of its mission. Individualised approaches to daily living and work, empathetic leadership, and diverse care and activity programs characterise life in these homes. The founder knows his company is in good hands with VidaCura – the shared vision and values will continue to be embraced and developed together in the future.

VidaCura

VidaCura is a leading nationwide group of independent and entrepreneurially managed operators of stationary care homes and senior residencies in Germany that offer their employees, residents and relatives the best quality of life and service.

VidaCura continuously expands its group of companies by acquiring or investing in high-quality operators in Germany.
